ABOUT ME

Full Stack Developer with over 3 years of experience in creating web applications and backends. I specialize in the Laravel ecosystem and modern frontend technologies such as Vue.js. Passionate about process automation, performance optimization, and making life easier. At work, I value teamwork, continuous technical development, and delivering high-quality code. Additionally, after work hours, I develop a stable where I automate processes such as water filling and online ride reservations.

PROFESSIONAL EXPERIENCE

Web Developer 05.2022 - 06.2025

FlightScope Gliwice, Poland - On-site

- ▶ Development in pure PHP backend serving as API for mobile and web applications.
- ▶ Maintenance and implementation of new features in a baseball portal written in Vue, which integrated with the above backend.
- ▶ Building from scratch a Laravel framework backend for a Unity game integrating with a golf radar, implementing features such as:
 - Rotational player leagues with leaderboards
 - Asynchronous task processing using Redis queue mechanisms
 - Game economy
 - Recurring rewards
 - Bots that simulate real player gameplay
 - Golf course card collections to collect through playing
 - Communication with websocket server that handled one of the real-time game modes
 - Feedback system integrated with Discord
- ▶ Development for the above backend of a separate service using WebSocket connections in Socket.io for real-time game modes.
- ▶ Creating and maintaining an administrative panel enabling user management, dedicated to the customer support department.
- ▶ R&D of React Native mobile application integrating with golf radar SDK along with porting a browser-based WebGL project to run directly in React Native.
- ▶ Performing DevOps tasks, creating custom Docker image for Bitbucket Pipelines that optimized processes and increased security.
- ▶ Creating and automating technical API documentation using OpenAPI and JSON Schema standards.

Junior Backend Developer 08.2021 - 04.2022

Arris Agency Chorzów, Poland - On-site

- ▶ Development of a tool for managing car advertisements and synchronizing them between services such as Allegro, Otomoto, and Gratka.

Internship - Web Developer 07.2021 - 08.2021

Merchandising Malaga SL Malaga, Spain - On-site

- ▶ Created a form for ordering wholesale products during internship using HTML, CSS, and Alpine.js.

Web Solutions Programmer 07.2020 - 08.2020

Information Technology Center Gliwice, Poland - On-site

- ▶ Development of CRM project written in Laravel.

PROJECTS

Niewiadomscy Ranch + admin panel
